

## Tata BlueScope Steel Unveils ILIOS™, a High Strength Light Weight Solar Module Mounting Solution; at REI

- ILIOS™ from Tata BlueScope Steel will integrate LYSAGHT® solar structure mounting solutions under one roof
- Solar module mounting systems will be for ground mounting and roof top applications
- ILIOS™ comes with AL-ZN alloy coated high strength steel that ensures corrosion resistance and longer life
- ILIOS™ Solar Module mounting structures will be available through established LYSAGHT® network

### Pune: 20<sup>th</sup> September 2017

Tata BlueScope Steel announces the launch of its indigenous brand **ILIOS™** a Solar Module Mounting Solution to cater, to the increasing demand of the renewable energy sector in India. With ILIOS™, TBSL would be addressing the demand for quality products under its flagship brand LYSAGHT®, for both roof and ground mounting solutions.

ILIOS™ comes with a wide range of sectional dimensions and thicknesses; making it suitable for every requirement. These customized mounting structures are manufactured from cold rolled Zn-Al/Zn coated steel that offers high corrosion resistance, weight optimization and quick installation. The high strength steel ensures better load bearing capacity and longer spans.

Speaking on this occasion, Mr. Ajay Rattan GM - Sales, Construction & Engineering said, "ILIOS™ is one step forward in consolidating our offerings for the solar segment under a single Brand. These specialized solutions enable an integrated approach, in terms of design detailing, engineering support, installation and material supply. So far we have been associated with major projects across India, amounting to 1.2 GW capacity. To fulfill the challenging needs of this industry, our R&D team of experts have been constantly improvising on the product offerings with Innovation and Quality at its core." He further added, "Our strong team of design engineers help in optimizing the weight of mounting structures, thereby reducing the overall cost of the structure and in turn the cost of the Project. One of the most tactical advantage is our manufacturing facilities spread across India, ensuring on-time delivery and faster project completion."

Mr. Riten Choudhury, Managing Director, Tata BlueScope Steel said, "Solar segment is poised for an exponential growth in the near future. It is essential for us to provide optimised and high quality solutions for bridging the demand supply gap. With ILIOS™, we aim to offer customised solutions suitable for every customer's requirement."

#### **About LYSAGHT®**

LYSAGHT® by Tata BlueScope Steel manufactures and markets roll-formed roof and wall cladding profiles and caters to the ongoing demands of the B2B industry. For over 150 years the brand has been providing high quality cladding solutions, structural products and accessories to the industrial, infrastructure and commercial segments world over. Additionally, it has also established itself as an expert in re-roofing and retrofitting jobs. With expertise in construction & engineering, so far the brand has given cladding solutions to more than 20 million square meters in the span of 10 years. LYSAGHT® Engineering and Construction services are well known for implementing world class safety practices for all its sites, globally.

#### **About Tata BlueScope Steel Limited**

Tata BlueScope Steel is an equal joint venture between Tata Steel and BlueScope Steel in the field of coated steel, steel building solutions and related building products. The Company operates in the South Asian Association for Regional Cooperation (SAARC) region. Tata BlueScope Steel maintains high standards in the area of Safety, Health and Environment and has been certified by Underwriters Laboratory Inc. for ISO 9001: 2008 as well as by M/s. UL MSS India for the ISO 14001 & OHSAS 18001 certifications. Tata BlueScope Steel's core values are Safety, Trust, Human Dignity and Excellence. The company consistently works towards "*Creating Your New World in Steel!*"
