BUTLER® BUILDING SYSTEMS

The World's Best Engineered Steel Building Systems; now available in India

Established in 1901 in US, followed by facilities in China & Saudi Arabia

Served customers all over the world; Market Leader in US & China

Since 1901, the BUTLER® brand is recognised for several distinct product advantages

MR-24® Roof System: The world's best & tested roofing system

BUTLER® Branded Sealant: Self-developed & researched sealant ensures weather tightness of building

Pre-punched System: Better alignment, Faster installation, Superior aesthetics

Roof Openings and Curbs: Fully engineered curbs offers leak-proof performance and facilitates uninhibited thermal movement of entire roof system.

Rod Bracing: Retains its original strength and tightness

Optional Shot Blasted Frame: For better paint adhesion

Tata BlueScope Building Solutions Certified Builders: High quality construction services

The BUTLER® Legacy

The history of the brand dates back to the year 1901, when the company BUTLER® Manufacturing was founded in the US. This company was acquired in the year 2004 by BlueScope Steel, a leading flat-steel products company, with a manufacturing and marketing reach that spans Australia, Asia and North America.

Over the years, BUTLER® BUILDING SYSTEMS has gained the confidence to take rigid frame design to the limit and lead the growth of engineered steel buildings into worldwide acceptance and favour. BUTLER® brand is built on innovation and attention to customer requirements. By providing timely construction and a superior product, it has achieved a remarkably high repeat customer rate. Tata BlueScope Building Solutions offers BUTLER® BUILDING SYSTEMS in the SAARC Region.

Key Differentiators

BUTLER® BUILDING SYSTEMS is a premium, globally renowned engineered steel building solution with exceptional credentials such as On-time Delivery, Leak-proof Roof System, Fully Engineered Solutions, Safe Erection Practices.

Assured On-time Delivery

Delivery commitments as per 'Front of Load' leads to higher adherence to on-time delivery

Hassle-free process ensures reduction in cycle-time by 'not shifting the priorities'

Critical Chain Project Management provides early warning signals for no surprises

Fully Engineered Solution

We understand requirements & optimise solutions to meet your operational needs.

BUTLER® Pre-punched system ensures better alignment and faster installation.

Pre-punched roof panels do not require measuring, marking and drilling on site.

Leak-Proof Roof System

180° of MR-24® roof panel seamed at site creating 360° tightest double-lock seam.

Staggered end laps positioned exactly above purlins for sustaining foot traffic

Roof expansion joint is not required up to 250 feet due to free thermal movement of Roof Clip.

Safe Erection Practices

Dedicated Construction Safety Team follows 'Zero Tolerance' approach to safety deviations

SKY-WEB® II System provides fall protection from the roof during construction

Mandatory use of boom lifts to reduce safety risks at your site.

Roof & Wall Systems

Roof Systems

MR-24® Roof System

BR-II™ 900 Roof System

Profiles made from premium COLORBOND® steel or ZINCALUME® steel for superior corrosion resistance and aesthetics

Wall Systems

TRIMDEK® 1015

CUSTOM ORB® 990

SHADOWRIB™ 900

Liner Panel Systems

FLEXICLAD® 1110

PANELRIB® 1110

About Tata BlueScope Building Solutions

Tata BlueScope Building Solutions is a division of Tata BlueScope Steel Limited, which is an equal joint-venture between Tata Steel and BlueScope (Australia) in the field of coated steel, engineered steel building solutions and related building products. The division supplies a range of engineered steel building solutions and takes single source responsibility for the design, manufacture, shipment and erection of steel buildings that can be used for applications in varied segments. The division offers FM Approved MR-24® standing seam roof system, MR-24® roof system with liner panel and BR-II™ roof system. The BUTLER® roof systems are certified with FM Approvals and meet the widest range of FM Approvals class in the region. The FM Approved roof systems are widely regarded by all customers as the best-in-class roofs, tested for wind uplift and fire rating. Tata BlueScope Steel maintains high standards in the area of Safety, Health and Environment; and has been certified by Underwriters Laboratory Inc. for ISO 9001:2008, ISO 14001:2004 & OHSAS 18001:2007 certifications.
