

LYSAGHT® from Tata BlueScope Steel is recognised as Best Product in Roofing and Cladding by Construction Times Awards 2017

LYSAGHT® from Tata BlueScope Steel was announced as winner for **Best Product** category under **Roofing and Cladding by Construction Times Awards 2017**. The award was jointly given by Mr. Shyam Raj Prasad - Commissioner Central GST & Central Excise and Prof.MN Sreehari - Advisor to Governor for State Traffic, Transport and Infrastructure; Karnataka, at a ceremony held in Mumbai on 7th October 2017, in recognition for its Contribution to the Construction Industry in India. Chosen by an independent panel of Industry experts; the Construction Times Awards are one of India's highly valued awards, recognising the contribution of the country's construction and infrastructure players.

While receiving the award Mr. Ajay Rattan – GM (Sales, Const. & Engg.) LYSAGHT® Business said, “We are honoured to be recognised by Construction Times Awards within the roofing category. For the last ten years in India, the brand has been associated with high quality roof and wall cladding products, innovation driven designs, technical expertise and service excellence. Our products are used in various applications across India within the industrial, infrastructure and commercial segments. Receiving this award is a reassurance, of us being one the most preferred and trusted building products partner within the construction fraternity.”

LYSAGHT® has a strong legacy of over 150 years with various applications in prestigious projects across the globe. With an expertise in construction & engineering, the brand has provided roofing solutions for more than 30 million square meters in the span of 10 years in India. A preferred choice of top architects within the country, these durable profiles offer design flexibility, thermal comfort and are available in a wide range of aesthetically superior colour palette. LYSAGHT® profiles are manufactured from high strength and superior quality raw materials such as COLORBOND® steel and ZINCALUME® steel, that make them an ultimate choice for rugged applications within the infrastructure and industrial segments.
