* Sheet length in meters may vary slightly.
DURASHINE® LongLine Crimp Sheets

Typical Applications

Type - A

Type - B

Typical Sheet Arrangement

Double slope roof with crimp ridge

Double slope roof with plain ridge

Crimp ridge

Guard Film

DURASHINE® LongLine Crimp Sheets come with the added protection of the Guard Film. The film not only adds protection to the sheet during storage, handling and installation but also enables the customer to identify the DURASHINE® brand.

The guard film should be removed immediately on installation.

Disclaimer on Condensation:

Condensation is the natural formation of water droplets on the bottom side of any installed metal roofing sheet. It may occur when there is a difference in temperature between the air in the building and the sheet itself, causing the water vapour (moisture) in the air to condense on the inside of the sheet. It is a natural phenomenon and hence no claims will be entertained in this regard.

The risk of condensation may be minimised by providing proper ventilation arrangement in the roofs and by using suitable insulation.

Maintenance Recommendation: Clean and maintain your roof regularly to remove dust and dirt.

Available Standard Colours*

Asian White™

Castle Red™

Passion Red™

Cherry Red™

Bright Green™

Pearl Green™

Cool Blue™

Nuvo Blue™

Graphite Grey™

Coffee Brown™
