OPERATIONAL
EXCELLENCE

GLOBAL
LEGACY OF
OVER 150 YEARS

A strong foundation of

LYSAGHT® from Tata BlueScope Steel manufactures and supplies roll-formed roof and wall-cladding solutions, structural products, purlins and solar mounting structures. Over the years LYSAGHT® has been associated with strong customer focus, innovative design engineering and high quality products; manufactured from high-quality COLORBOND® steel and ZINCALUME® steel at state-of-art facilities.

TRUST and QUALITY

The brand's product superiority is well complemented by its construction capability, catering to a wide range of applications. From large industrial and commercial buildings, manufacturing facilities, warehouses to infrastructure projects such as metro stations, airports and stadiums; LYSAGHT® construction edge provides an integrated solution for your roof and wall cladding requirements.

Expert installation services with World Class Safety Practices

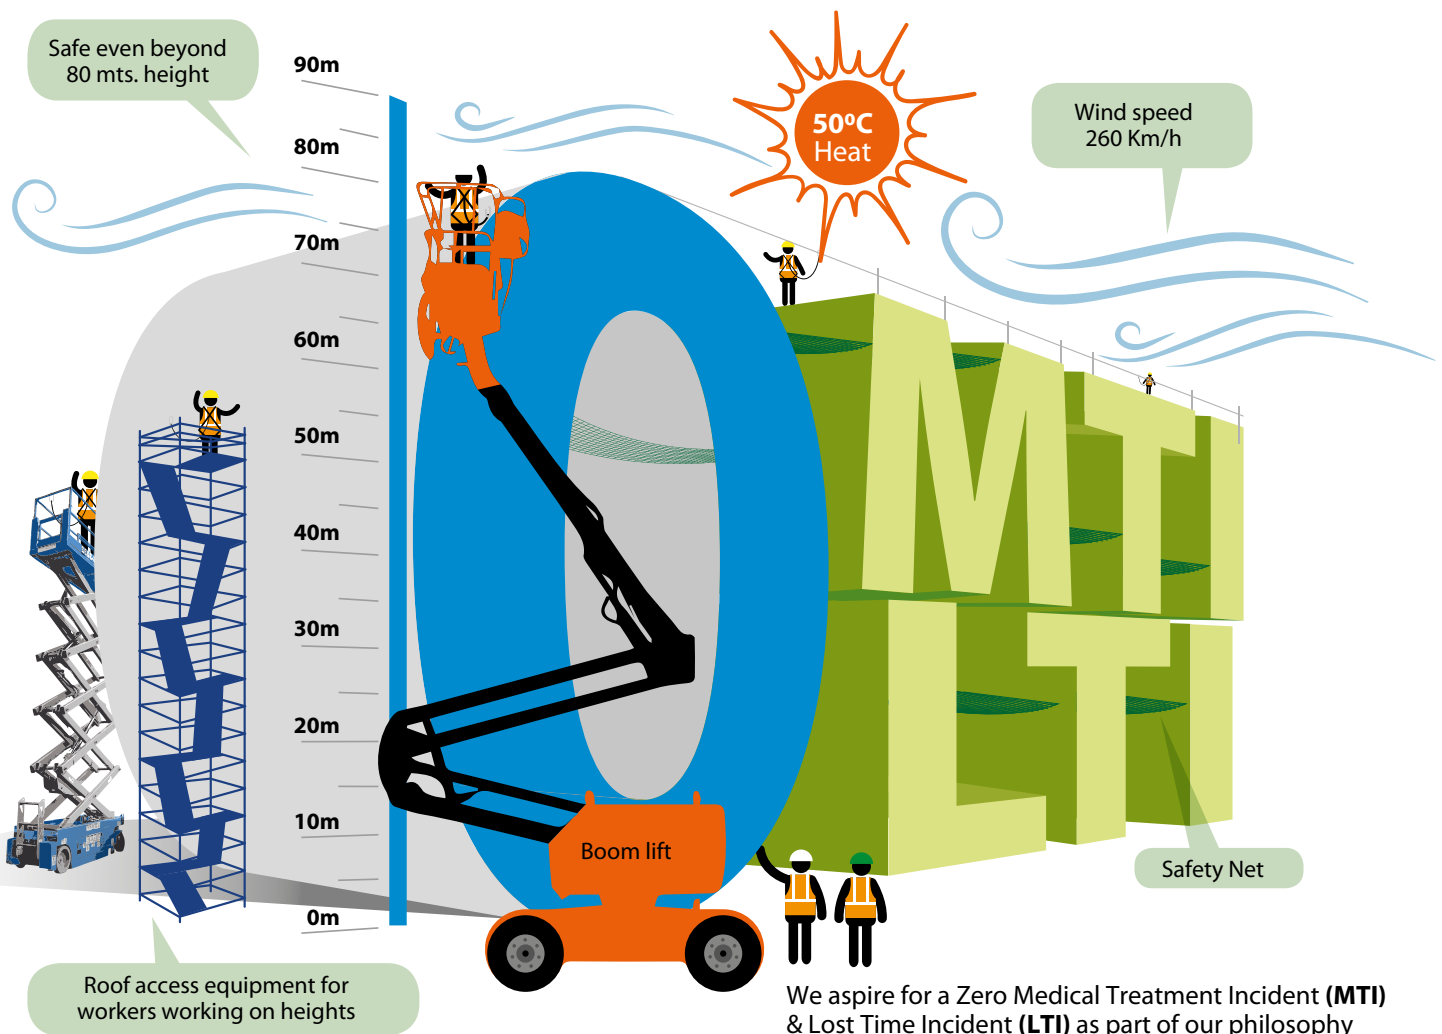

1 Safety Measures

At Tata BlueScope Steel, safety is in the behavior and not just compliance. LYSAGHT® construction safety is a benchmark in industry. Our construction expertise reflects in our critical roof erection practices. It is reiterated with safety ideology of 'Zero Harm' practiced globally by BlueScope Steel, Australia. We ensure safe work methodologies right from planning stage, to trained resource allocation with best in class equipment.

Working under extreme conditions

2

Safety Processes

- ✓ Zero Harm practices
- ✓ Risk management
- ✓ Weekly site audits and reviews
- ✓ Third party certifications for tools & tackles

Expert installation services with World Class Safety Practices

3 Training & Development

Business Leaders Safety Coaching Program

Site specific training programs:

- ✓ Working at heights and Fall prevention
- ✓ Sheet lifting and maneuvering
- ✓ Working in adverse weather (Extreme summer and heavy wind areas)
- ✓ Site preparedness (Working in proximity to High Voltage lines, in toxic environment etc.)
- ✓ Fire fighting training and drill

Safety training for working at heights

On-time Project Delivery

Systematic Project Management

Dedicated Project Management Team focused on managing project timelines, quality control, health and safety checks and resolving site issues.

LYSAGHT® Authorized Builders

(LAB Network)

Wide network of certified builders handpicked for their experience, credentials, resources and safety performance.

AGILITY & SCALABILITY

Large resource pool, enabling flexibility in manpower allocation as per customer requirement for timely project execution.

LYSAGHT®

Value Added Services

Roof Diagnostics

LYSAGHT® roof diagnostics service provides an in-depth analysis of roof, that includes serviceable life, condition analysis and problem areas on existing roofs as well as new roof installations.

Our team of Roof Experts advocate preventive maintenance in best interest of customer's investment.

Preventive maintenance

Roof Health Report

Awareness on the best practices for maintenance

Roof replacement or repair services if required

Annual Maintenance Contract

LYSAGHT® offers best roofing maintenance program which ultimately increases the performance of your roofing system and reduces the costs incurred on roof replacement.

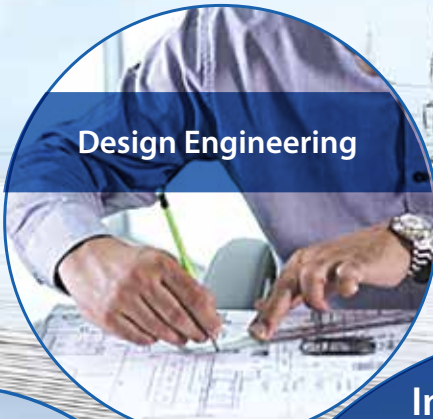

Roof systems, unlike other parts of a structure are susceptible to severe weathering, expansion, and contraction leading to leakages and roof system degradation.

Continuous inspection and maintenance by LYSAGHT® AMC ensures proper upkeep of the roof, resulting in safeguarding of the entire structure.

Force Motors, Pithampur

Unmatched Construction Quality with Capability

LYSAGHT® team of construction experts are capable of handling projects that demand critical erection efficiencies like working at formidable heights, under extreme environmental conditions or over a fully functional plant. LYSAGHT® has built expertise with technical know-how, hands-on exposure, most advanced tools and equipments, for addressing diverse customer requirements.

Aesthetics

Modern structures with signature styled architecture demand specialized construction capabilities that help achieve an architect's vision. Quality workmanship plays a significant role in the final outcome of the building.

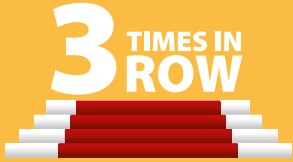

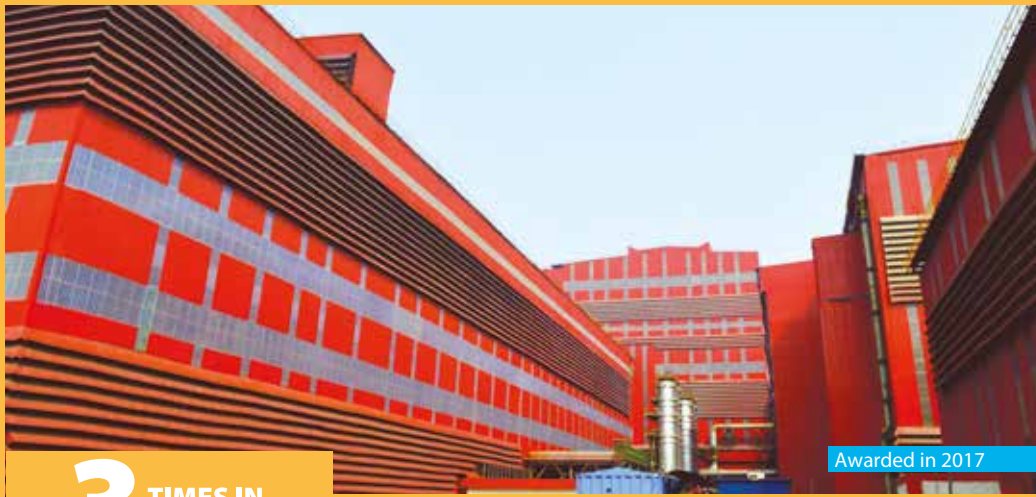

Leak Proof Performance*

LYSAGHT® erection capabilities ensure leak proof performance of the structure, giving customers the assurance of not only protecting their machinery and property but also achieving their productivity goals.
