Envisioning a Safe Future

Tata BlueScope Steel has always pioneered in innovative solutions for improving lives. Delivering socially relevant infrastructure projects such as Anganwadis, Water ATMs, hygienic Modular Toilets and Mother-Child Care Booths; EZYBUILD® solutions offer technologically advanced and are 100% recyclable.

Our Lifecare Solutions

To combat the pandemic and contain the spread, Tata BlueScope Steel is committed to help the nation fight back virus through its solutions. Optimising healthcare facilities for the affected is the need of the hour. With limited number of hospitals and isolation wards to accommodate the ongoing influx of the patients, it is critical to find alternatives that are secure and quick to erect. With its expertise and experience in socially relevant projects; EZYBUILD® resolved to Design, Develop and Install customised lifecare solutions in form of Isolation & Quarantine units, Testing & Sample collection booths and Doctor's Cabins.

Ezybuild® Advantages

Quick & Easy to Install

Accurately designed with precision engineering and prefabricated off-site; the structures are erected with speed and efficiency.

Modular

Light weight structural members can be easily dismantled and re-locatable.

Easy to Maintain

Hygiene being extremely critical, the structures can be easily cleaned and sanitised without affecting its quality.

Thermally Efficient

Ezybuild structures with LYSAGHT® roofing offer greater thermal efficiency due to THERMATECH® Technology*

Durable and long lasting

EZYBUILD® structures are made from high strength light weight COLORBOND® steel and ZINCALUME® steel that offer great corrosion resistance.

EZYBUILD® COV-Kill Isolation & Quarantine Units

A mainstay for cluster containment, isolation and quarantine units are extremely critical to control the pandemic. Designed adequately to house enough patients, suitable medical supplies and hygienic sanitation; COV-Kill are the new age isolation units that are spacious and planned as per medical protocol.

Highlights

- ✓ Designed as per Medical Guidance on Social Distancing
- ✓ Complete & Ready-to-use cabins of size 3.66 m x 9.9 m x 2.4 m
- ✓ Accommodating 6 Beds (with 1000 mm gap) & 2 Toilets
- ✓ Adequate ventilation for doctors and patients
- ✓ Insulated with double layer insulation roof.
- ✓ Essential Civil, Electrical & Plumbing Work Provided

Quarantine wards are KIT solutions where Wall and Roof panel are assembled onsite. They can be easily dismantled, packed and shifted as and when required. It's assembly and dismantling does not require heavy duty cranes and material handling equipment.

Testing & Sample Collection Kiosk

Designed with care, these kiosks ensure highest safety standards for healthcare professionals while collecting & testing samples. Tata BlueScope Steel has developed a contactless chamber built to avoid direct contact with the person. The shielding screen of kiosk cabin protects from aerosols of patients while taking sample. It also minimises the use of PPE for each sample taken.

Two Patient Booth

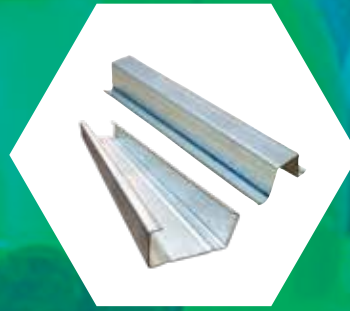

Single Patient Booth

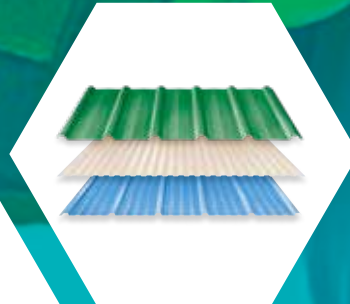

Highlights

- ✓ Designed as per Medical Guidance on Social Distancing
- ✓ 2 different designs: One for 2 patient booth and the other is for single patient
- ✓ Size for 2 patient booth: 1.66 m x 4.8m x 2.4 m
Size for single patient booth: 1.5 m x 1.5 m x 2.4 m
- ✓ Spacious cabin size for medical equipment
- ✓ Adequate Ventilation
- ✓ Essential Civil, Electrical & Plumbing Work Provided
- ✓ Modular and customizable solutions are also available as per customer need

FEATURES

Structures manufactured from high strength light weight ZINCALUME® steel

Roof & wall cladding of LYSAGHT® TRIMDEK & false ceiling of PANELRIB® manufactured from thermally efficient COLORBOND® steel with bubble insulation in outer periphery

Can be offered with or without base platform

Strong & Robust Structure

Easy on maintenance and cleanliness

Tata BlueScope Steel has always been at the forefront of providing innovative and quick solutions in times of distress. With an expert in-house design & engineering team, strategically located manufacturing units and proficient installation squad, we are geared to combat COVID-19 in heart and spirit.
