

Colorbond®

# Most Advanced Cladding Solution for **WAREHOUSE**

  
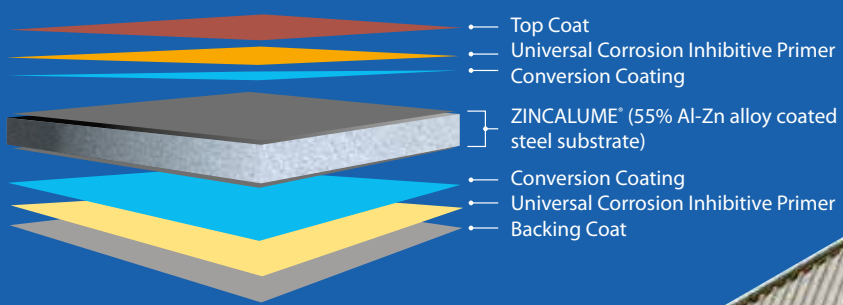

**TATA BLUESCOPE  
STEEL**

# The Best **ROOFING MATERIAL** for your Modern **WAREHOUSE**

World class companies derive their efficiencies from advanced warehousing and logistic capabilities. Selection of the right cladding material for construction of a warehouse is imperative. Roofing is one of the critical building components that ensures longevity of the building and protection of goods under extreme weather conditions.

COLORBOND® steel is world's most advanced pre-painted steel product. Its base metal thickness ranges between 0.30mm to 1.30mm and widths from 900mm to 1250mm. It is available in vibrant colours, in grades ranging from 300MPa to 550MPa. With a strong presence in South Asian region, Tata BlueScope Steel offers COLORBOND® steel - technologically advanced colour coated steel product.

Cross Section of COLORBOND® steel

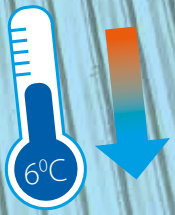

**MAINTENANCE FREE**

**THERMALLY EFFICIENT**

**ENVIRONMENT FRIENDLY**

**SIGNIFICANTLY LONGER LIFE**

# INDUSTRY Demands

Warehousing demand is growing at a rapid pace with a focus on innovation, cost, speed of delivery and versatility. A structure which is safe, durable, absorbs less heat & incurs minimum maintenance is critical for warehousing sector.

**MULTIPLE COLOUR CHOICE**

# The **COLORBOND**<sup>®</sup> Edge

## Superior Aesthetics & Design Flexibility

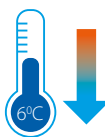

COLORBOND<sup>®</sup> steel is available in aesthetically appealing colours. Its viability in a number of profiles, makes COLORBOND<sup>®</sup> steel the ultimate choice for creating customised, signature styled structures.

## Proven Performance

Backed by advanced technology and continuous research & development, COLORBOND<sup>®</sup> steel has been rigorously tested under real world conditions for more than five decades.

## THERMATECH<sup>™</sup>

The Solar Reflectance Technology in COLORBOND<sup>®</sup> steel lowers inside temperature by absorbing less heat. It reduces the annual energy consumption by up to 15%\* & inside temperature by up to 6°C\*\*. It is RoHS compliant, does not contain heavy metals; making it recyclable, reusable and apt for rain water harvesting.

\*Depending on level of insulation, colour, building shape, orientation and ambient temperature.  
\*\*Depending on the colour

Ideal solution for **severe environments**

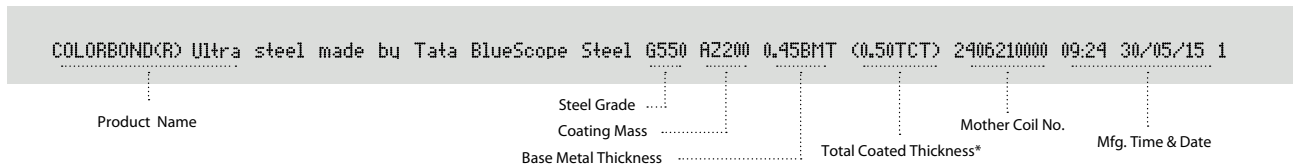

## Excellent Corrosion Resistance

Tata BlueScope Steel makes cladding material well-suited for coastal regions and toxic industrial zones. COLORBOND® Ultra offers excellent corrosion resistance. Its high quality paint system ensures resistance to rusting, fading and chalking; outlasting other roofing materials.

## A Surety of Genuineness

**COLORBOND® steel - Brandmark on the reverse side of strip**

(\*Total Coated Thickness excludes paint thickness.)

## Peace of Mind

COLORBOND® steel is backed by a Tata BlueScope Steel Warranty\*. With up to four times lifespan over conventional pre-painted galvanised steel, you can be confident that COLORBOND® steel will keep your project aesthetically superior for years to come.

\*Subject to terms and conditions

## COLORBOND® steel range of vibrant colours

Note : These colour shades are only for reference. Due to printing limitations, the colour shades may vary.  
\*Non Standard Color

COLORBOND® steel is recognised by CII Indian Green Building Council (IGBC) as Green Product in Green Building Ratings
