# Transforming Your World Seamlessly

LYSAGHT® Re-roofing Solutions enable ease of  
selection with long term protection

# About **LYSAGHT®**

LYSAGHT® from Tata BlueScope Steel manufactures and supplies roll-formed roof and wall-cladding solutions, structural products, purlins and solar mounting structures. Over the years LYSAGHT® has been associated with strong customer focus, innovative design engineering and high quality products; manufactured from COLORBOND® steel and ZINCALUME® steel at state-of-art facilities. From large industrial and commercial buildings, manufacturing facilities, warehouses to infrastructure projects such as metro stations, airports and stadiums; LYSAGHT® provides an integrated solution for your roof and wall cladding requirements.

## Everything Important Lies Under a Roof

The process of re-roofing is indeed complex, often posing new challenges. Selecting the correct roofing material or profiles, with exact design specifications, installed by experts; customers often face many challenges during the process. Fragmented suppliers, absence of one-stop-solution and lack of scalability as per project requirement; are some of the issues faced while taking the right decision. Purchasing a new roof is a long term investment for customers seeking quality and durability.

# LYSAGHT® Re-roofing Redefined

Known for its exceptional customer focus, strong engineering capability, quality solutions and a wide product basket; LYSAGHT® has also evolved as an engineering expert in reroofing and retrofitting jobs. With expertise in construction & engineering, the brand has provided these solutions for an area of more than 35 million square meters so far.

Construction capabilities of over 7 Million sq. mt. with a consultative approach and a team of trained experts.

In-house Engineering Team for *Design & Detailing* Supported by advanced software for optimised designs.

World class Safety Measures Reiterated by 1.2 Million LTI Free Manhours along with a Certified Builders Association Pan India. Helps us deliver Zero Harm to Zero Downtime.

Availability of *Multi-Locational Manufacturing Facilities Pan India* & a systematic project management execution, helps us deliver *On-Time Project Completion*.

# 360° Re-roofing Process

## INSPECT

Before commencing work, we complete an extensive roof inspection to detect any issues that may affect the re-roofing process.

## COUNSEL

We identify potential limitations and make a re-roofing suggestion that takes into account all the specifics of your structure.

## DESIGN

A strong in-house engineering team offers technical support that includes optimized design and detailing.

## SUPPLY

Strategically located manufacturing plants ensure on-time and uniformed quality material supply.

## INSTALL

Technically trained team of construction specialists from LYSAGHT®, ensure a seamless reroofing process within stipulated time and with great finish.

LYSAGHT® offers modern construction technologies with innovative building methods enabling good roofing solutions that yield well defined appearance and aesthetically superior structures.

# Turnkey Re-roofing Solutions for a Seamless Experience

Whether under 50° Celsius temperature or at a height of 80m and beyond; we ensure critical tasks are carried out meticulously without interrupting your ongoing schedule.
