Legacy of over 150 Years backed by Global Excellence

LYSAGHT® finds its roots way back in 1857. The brand has spread its wings across the globe; due to its commitment for quality products and putting customers at the centre of everything. Today LYSAGHT® offers a wide range of premium roof and wall cladding profiles, structural products and accessories for the industrial, infrastructure and commercial segments, with footprints in various architectural and heritage buildings worldwide.

Customer Centric Solutions

LYSAGHT® provides customer centric solutions with a wide product basket for diverse applications. Our on-time delivery promise is well augmented by multi-locational manufacturing units and an extensive sales network. With a focus on customer's success, we offer value-added services like construction, engineering and preventive maintenance support.

Standard Colour Range

Note : Above standard colour shades are given for guidance only. The colour shades may look different due to print limitation. Please contact the nearest Tata BlueScope Steel sales office for any other colour shade enquiry.

ZINCALUME® steel

Unmatched Design and Engineering Capability

We derive our technical expertise from BlueScope Steel's experience across the globe. A strong in-house engineering team offers technical support that includes optimized design and detailing, through internationally acclaimed softwares. From design to erection our team of professionals ensure an architect's vision is put to reality.

State-of-art Manufacturing

The brand's product superiority is well complemented by its manufacturing expertise. World-class manufacturing facilities strategically located in Chennai, Pune, Bhiwadi, Jamshedpur in India and one in Sri Lanka, ensures on-time product delivery with consistency in quality.

Global Benchmark in Safety & Construction Practices

When it comes to Safety; we are committed to Zero Harm; to people, plant and environment. We have clocked so far 2 million accident free man-hours (till March19). Our construction practices are governed by BlueScope Steel's best practices which are a global benchmark.

Quality & Innovation

LYSAGHT® range of premium building products undergo several rigorous tests and proven processes such as pressure cladding test, multi loading test, water penetration test etc. at LYSAGHT® R&D center in Australia (NATA* registered testing laboratory). With its expertise in construction & engineering, LYSAGHT® has provided roofing solutions for more than 30 million square meters within a span of 10 years in India and has been recognised as the most trusted roofing brand within the fraternity.
