

## **Tata BlueScope Steel donates Micro-Debrider to Sassoon Hospital**

Pune

To cure patients with mucormycosis, a medical device called Micro-Debrider was donated by Tata BlueScope Steel to Sassoon General Hospital. Micro-Debrider is used for performing complex surgeries for Mucormycosis as well as other ENT issues.

As part of its CSR initiative, Tata BlueScope Steel has been working to strengthen the healthcare and medical infrastructure within the city.

The machine was installed in presence of Mr. S Chockalingam (Director General Yashada and Administrative Head Pune district & Sassoon General Hospitals), Dr. Murlidhar Tambe (Dean- BJ Govt Medical College & Sassoon General Hospitals) and Dr. Sameer Joshi (Head - ENT Department, Sassoon General Hospitals) and other doctors and staff of Sassoon.
