

Tata BlueScope Steel

Innovative Technology using Light Structural steel for constructing utility buildings

Combining the Strengths of Two Great Companies

LEGACY OF MORE THAN

100

YEARS

Multi-locational
Operation facilities

Commercial presence
around the globe

Highest quality Cold
Rolled Steel supplier

Innovation with
Research &
Development

Global leader in Metal
coating & Pre-painted
steels with Roll-forming
capacity

World's largest producer
of Zn-Al coated steel
(>2Mtpa)

14 Metal coating lines
11 Paint Lines

Manufacturing
excellence with high
quality material

Offering Steel Building Solutions with guaranteed peace of mind!

Our
VISION
Our
MISSION

Our Vision

We Deliver Excellence through Sustainable Coated Steel Solutions to all our Stakeholders.

The means envisaged to achieve our vision are...

- Exceed customer expectations through agility, innovation, trustworthiness, and collaboration.
- Deliver best in class products & solutions, leveraging our technological excellence.
- Continue to attract, engage and retain the best talent.
- Create value for all our stakeholders while scaling at rapid pace.

Our
VALUES

Our Values

- **Collaboration** : We will invest in our **people** & partners, enabling continuous **learning** and **collaborative** relationship based on trust, **compassion**, and mutual respect.
- **Courage**: We will take on new challenges to **outpace** the changes outside to remain relevant & **sustainable**.
- **Excellence**: We will be passionate about achieving the best in **class** in whatever we do.

The roof consists of cement boards laid on LGFS frame with a PVC membrane covered with metal roofing , color coated galvanized sheets clay tiles, shingles.

Roofing System

Entire framework LGFS section as per structural design with Galvanized coating.

Structural Component

LGFS frames covered with cement/ gypsum covered with weather shield & brick Cladding cement board sidings / AAC panels , to receive exterior grade paints . Insulation between sheets in rockwool polyurethane.

LGFS Frames

Flooring System

The floor comprises of LGFS floor joists with aerated concrete panels to take tiles laminated wooden floors, carpets tiles.

Plinth

The base Foundation & plinth in reinforced concrete stem walls with LGSF floor joist covered with aerated concrete panels.

EZYBUILD[®] Solutions are a set of light – gauge structural buildings for Commercial , Industrial , Residential , Infrastructure , Healthcare , Agriculture & Institutional applications. These ready to install prefabricated steel building solutions are quick alternatives to conventional buildings & are offered through a dedicated network of authorized **EZYBUILD**[®] Solutions providers.

EZYBUILD® Solutions Working Model

Value Proposition

Smart Sustainable Solution over conventional method

Completion time - 5-6 weeks to completely erect the whole structure

Light weight design - Cold rolled sections are light sections as compared to MS

Easy to Fabricate - Pre-Punched as per design, only needed to be screwed down

Light Foundation - Building weight is very light (almost 1/2 to conventional)

Manpower saving - Members are 1.0 – 1.5 Kg/Rm, easily 2 people can carry and fix the members

Better & Economical - Double sheeting with rock wool insulation, provides better insulation & economical solution

Zero Maintenance – Least maintenance required

EZYBUILD® Solutions Product Offerings

**TRUSS and WALL Solutions
made of ZINCALUME® sections**

Resorts, Schools, Office space,
Quarters & Hostels Buildings, Play
schools, Residential buildings and
Health care Units

**Only TRUSS Solutions
made of ZINCALUME® sections**

Resorts, Residential buildings,
Educational Institutes, Roof top
Solar ,Roof top Extensions, Agro-
Aligned Industries

**PEB Structure
made of Cold formed Galvanized Steel**

Small Scale Industries, Warehouse,
Community halls, Sports Complex,
Canteen, Cold-Storage ,Roof
Extension Buildings and office
buildings

Application

Product

Educational Institutions
(Auditorium ,
Sports complex,
Classroom ,
Cafeterias,
Recreation room)

Healthcare
(Hospitals, Clinic
and Healthcare
Centers)

Residential Buildings
(Resorts, Form
houses and Guest
Houses)

Commercial Buildings (Office ,
Roof extension,
Cabins)

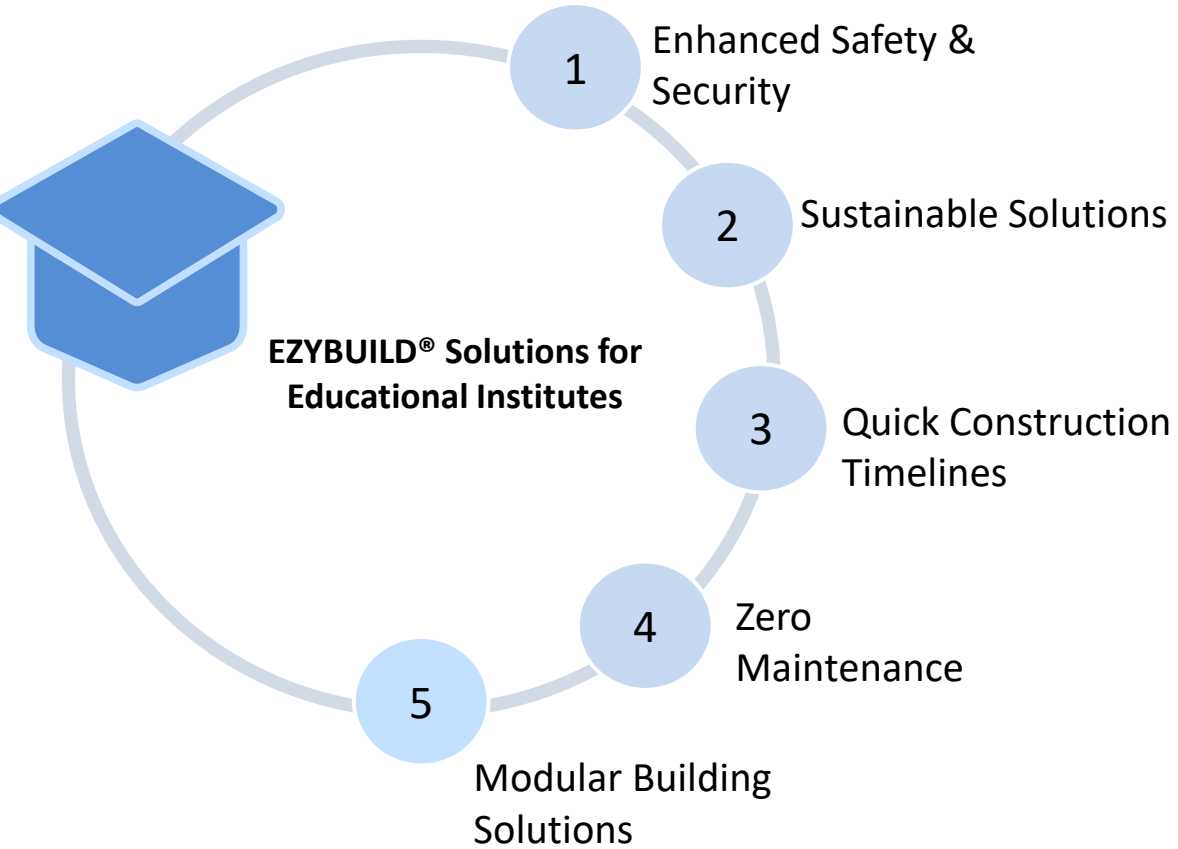

Small Industrial Buildings (Cold
Storage, Warehouse,
Processing Unit)

Infrastructure Projects (Parking
Shed, bus shelters,
telecom shelters,
Pulpit office)

Agricultural Solutions
(Cow shed - Dairy
farm - Poultry shed -
Cattle feed mfg -
Fertilizers - Sugar
industry - Fishery -
Livestock housing -
Crop storage)

Light –Gauge ready to install prefabricated steel building solutions are quick & customized solutions for better design backed by Green Construction Technology for **Auditorium , Sports complex , Classroom , Cafeterias , Recreation room .**

Light-Gauge ready to install prefabricated steel building solutions are quick & Customized solutions for better design backed by Green Construction Technology for **Hospitals, Clinic & Healthcare Centers.**

EZYBUILD® Solutions for Healthcare

1

Sustainable
Solutions

2

Zero
Maintenance

3

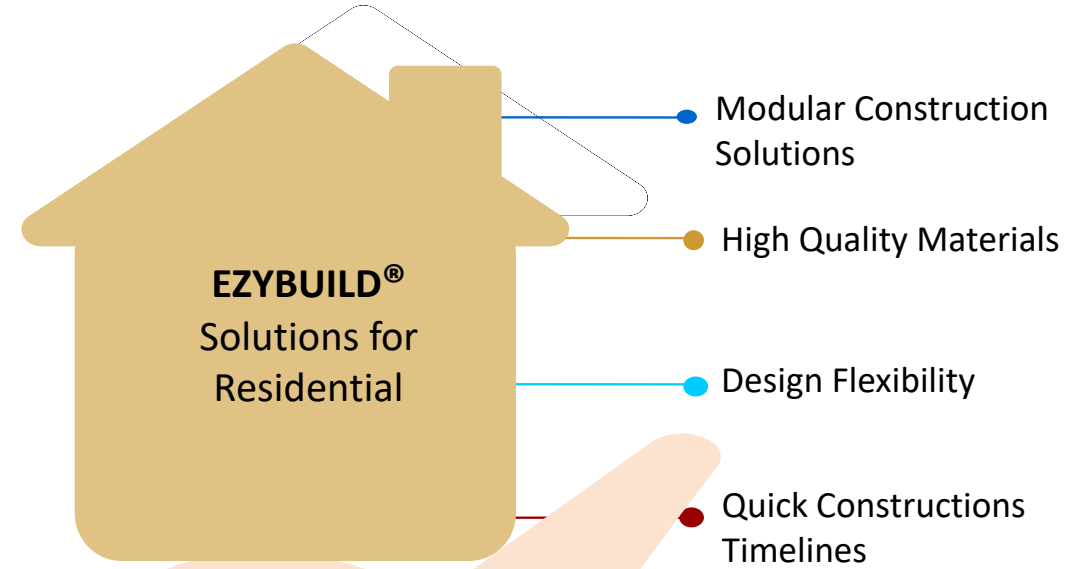

Quick
Construction

4

Modular Healthcare
Solutions

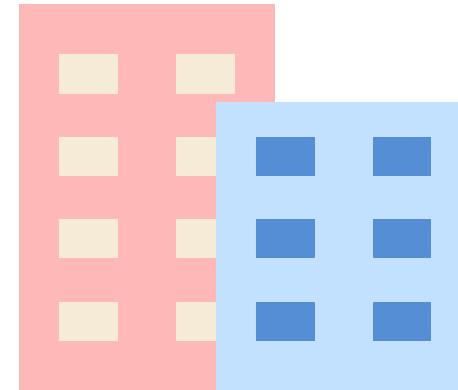

EZYBUILD® is an architect's vision from design ,to complimenting living spaces while taking into consideration all weather conditions , We provide solution for **Resorts , Farmhouse & Guest House.**

Roof & Wall Cladding Solutions which provides high reflective index . This Comes with high strength steel& cooler environment for **Offices , Roof Extension, Portal Cabins .**

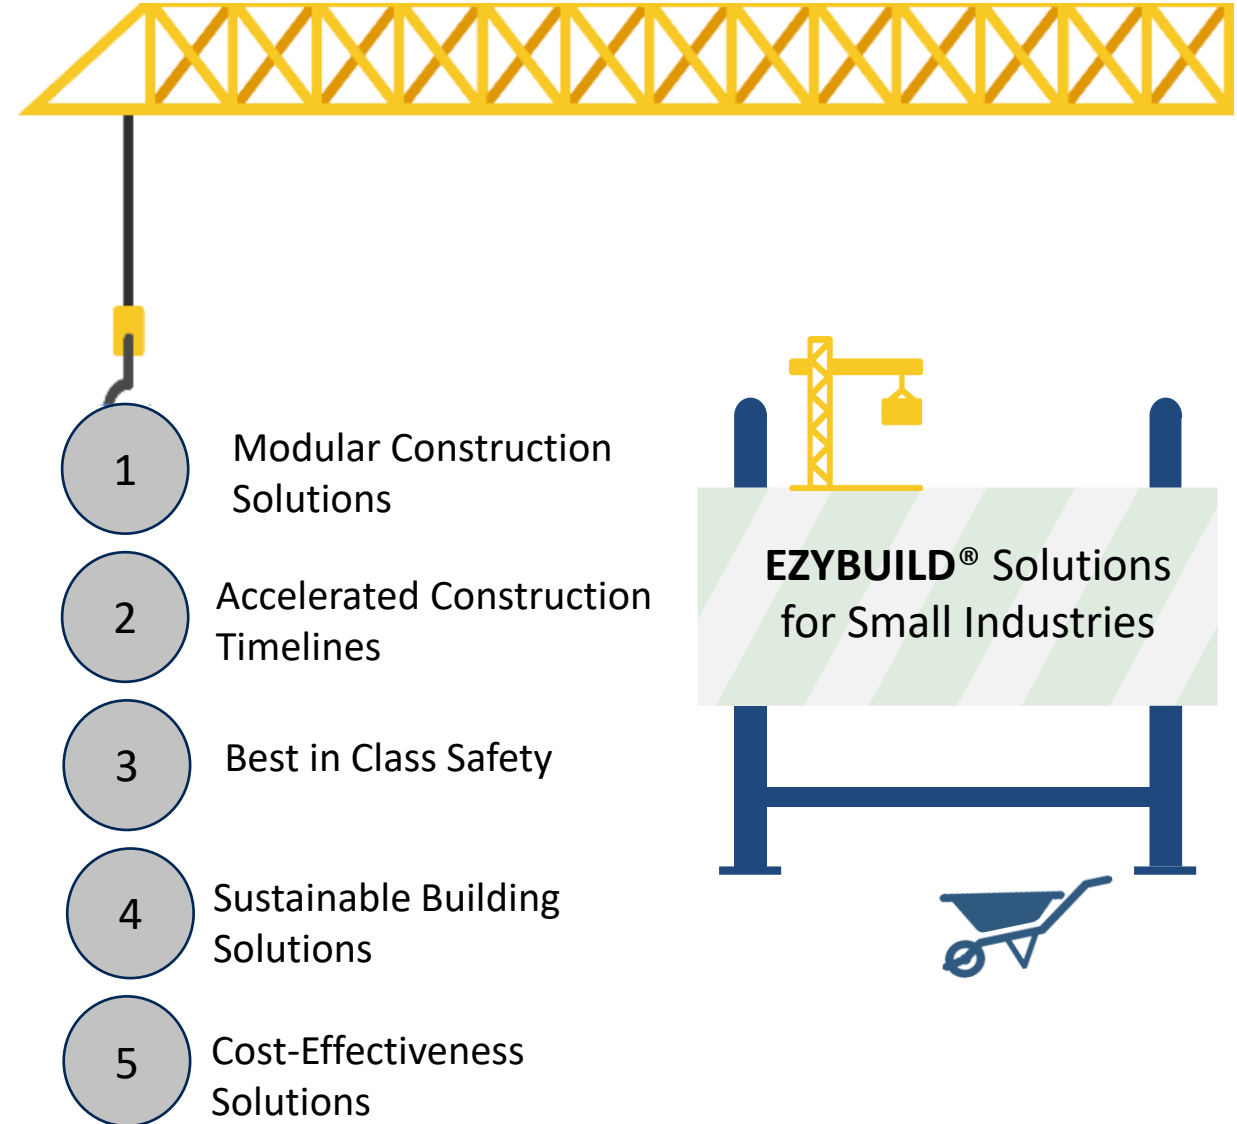

EZYBUILD® Solutions for Commercial Space

- 1 Modular Construction Solutions
- 2 Sustainable Building Solutions
- 3 Reduced Construction Time
- 4 Tailored Design & Flexibility
- 5 Cost- Effective Solutions

EZYBUILD® Solutions for Cold Storage , Warehouse , Processing Unit comes with accurate dimensions & design Flexibility provide clear span for accommodating more than sufficient.

Infrastructure Projects - Extend & Expand; Anytime, Anywhere

Porta Cabins are pre-fabricated, portable & easy to maintain
Habitat are reusable & recyclable
